For this assignment I did poster for our project of Eindhoven rock city using photoshop.to promote them.

What I learned:

What I realize is When I started to make the poster, I realize how many different things you can do in photoshop. I also learned the importance of typography.

How I think it went:

I think at first, I was a little lost with how photoshop works but after I did some work on it I think it's going well and I'm enjoying learning how to work with these tools and also the importance of typography.
